

SAM 2024

5th Snow Algae Meeting

6th-7th November 2024

Nord University, Bodø (Norway)

We are excited to welcome you to the **5th Snow Algae Meeting**, which will be held in **Bodø in Northern Norway!**

6th and 7th of November 2024

At the main campus of Nord University

After successful previous meetings, we would like to gather again researchers from around the world in the field of snow and glacier ice algae!

Session topics

Continuing the same format as earlier meetings, colleagues are invited to present and discuss their research in an informal workshop-like environment over two full days duration.

We will invite presentations (15 mins + 5 mins questions) and display posters on all topics related to snow and ice microalgae!

Registration

Registration will be offered later during August with deadline around the end of September. To ensure a modest registration fee, we are hosting the meeting at Nord's student campus in Bodø, Universitetsalléen 11, 8026 Bodø, Nordland, Norway.

Organizing committee

The scientific committee includes

Hirono Suzuki, Alexandre Détain & Chris J Hulatt (Nord University, Norway)
Linda Nedbalová & Lenka Procházková (Charles University, Czechia)
Thomas Leya (Fraunhofer IZI-BB, Germany)
Daniel Remias (University of Salzburg, Austria)
